BOSCH

Säkerhet har en
lång tradition
hos Bosch

AEROTWIN

Säkerhet och topprestation

Att föraren har fri sikt är en viktig förutsättning för att få säkerhet i trafiken. Vartenda torkarblad från Bosch presterar i topp när det gäller att garantera säkerheten. Under ett torkarblads genomsnittliga livslängd rengör det motsvarande en area på 60 fotbollsplaner. Samtidigt tillryggalägger bladet ungefär 80 mil i de mer än en halv miljon rörelser det gör fram och tillbaka över rutan!

Imponerande siffror tack vare tekniskt fulländade egenskaper. Precis som på många andra områden inom bilteknologi har innovationer från Bosch varit banbrytande i årtionden. Här kan man nämna det första elektriska torkarbladet, vindrutespolarsystemet eller användning av syntetiska torkarbladsdelar – Bosch har varit och är fortfarande pionjär när det gäller utveckling av bilutrustning.

Applications

Notes for users

This catalog contains the data from the vehicles, engines, and equipment for the European market from year of manufacture 1993 up to and including the year 2012. This data has been assembled from information provided by manufacturers and importers, and taken from Bosch documentation, as well as from investigations made on vehicles. It has been compiled to the best of our knowledge and belief, and reflects the status at the date of going to print.

It is impossible to avoid deviations caused by technical changes resulting from the conditions and regulations applying in a particular country. Bosch can therefore accept no liability for the completeness and faultlessness of the data. In case of mistakes and misprints which result in damage to property or assets, Bosch is only liable for immediate damages insofar as a gross breach of duty or wrongful intent apply. If personal injury is involved, Bosch is liable also in case of ordinary negligence.
